

Introducing, from
AWE Air Water Earth Inc.
 the industry leaders
 in solid technology,
an Eductor Feed System
 for cooling towers.

Along with expanding opportunities for solid products in larger systems, the **Eductor System** offers several other advantages:

- reduced maintenance
- cost effective (feed equipment \$/ton reduced)
- biocide feed effectiveness increased
- lower power requirement

Solid Chemical Feed Capabilities

Eductor: (for one eductor feeding continuous)	Pumps:
under optimum conditions: 438 gal/min make-up, up to 29,000 tons trial conditions: 83 gal/min make-up, 5500 tons trial conditions: 263 gal/min make-up, 17,500 tons	24 gpd: 17 gal/min make-up, 1100 tons 48 gpd: 33 gal/min make-up, 2200 tons www.awe-env.com
